*Costs & charges*  
information

This document sets out the ongoing costs and ad hoc charges that apply to portfolios in our Wealth Management Service (WMS).

## Ongoing costs

- **Bordier UK investment management fee:** Our fee is based on the value of the portfolio. It is calculated using the portfolio value at the month-end and is charged to the investment account monthly in arrears. Our tiered rates are 1.00% on the first £1m of assets, 0.75% on the next £1m of assets, 0.5% on the next £1m of assets and 0.30% on the balance of assets.
- **Value Added Tax (VAT):** Currently 20%, added to the investment management fee where applicable.
- **Dealing charges:** Currently £50 per transaction. For transactions under £5,000, the charge is capped at 1% of the transaction value, up to a maximum of £50.
- **Fund manager fees charged to the underlying funds:** These typically average 0.75% to 0.85% per annum and are charged to the underlying funds rather than paid direct by the client.

We may review our fees and charges for providing our services at any time and shall give you not less than one month's notice of any changes to them.

In most cases we will not charge a fee to comply with a subject access request. However, where a request is excessive, we may charge a 'reasonable fee' for the administrative costs of complying with the request.

We may also charge a reasonable fee for further copies of the data following a request, with this fee again based on our internal administrative costs.

## Illustration - *establishing a new portfolio from cash*

Investing a £1m portfolio from cash would typically involve 25 initial purchases and perhaps another four changes (two sales and two purchases) during the first 12 months – 29 transactions in total. Assuming no ad hoc charges to the portfolio, our fees and charges over the first 12 months would be as set out in the table below.

Charge	Rate (%)	Cost (£)	Payable to
Bordier UK investment management fee	1.00	10,000	Bordier UK
VAT on investment management fee	20.00	2,000	HMRC
Global custody and administration fee on assets held with SEI	0.10	1,000	SEI (via Bordier UK)
<b>Sub total</b>	<b>1.30</b>	<b>13,000</b>	-
Dealing charges (29 deals x £50)	0.14	1,450	Bordier UK
Fund manager fees in underlying funds	0.75	7,500	Fund managers
<b>Total</b>	<b>2.19</b>	<b>21,950</b>	-

A gross return (before fees and charges) of 7.19% would be required to give a net return (after fees and charges) of 5%.
